

2012 Children's Activities

Join us at the Jack and the Beanstalk Garden!
A place where magical things happen!

Free Children Gardening Programs, no pre-registration required.
All classes begin at 1:00 pm and are approximately 1.5 hours.

May 5 Becoming Weather Wise	Join us as we learn about the weather all around us. We will measure the weather at Jack's House rain or shine. Make your own mini weather station so you can check the weather at your house too!
May 19 Planting a Garden and Using Greenhouses	Where is the best spot for your garden? What plants go where? Make a mini-greenhouse and learn how greenhouses help extend our growing season.
June 2 Stepping through Mr. McGregor's Garden	Peter Rabbit is being mischievous again! Hear his story, plant some veggies for Mr. McGregor's garden and make stepping stones for the path.
June 23 Planting a Rainbow	Come plant a rainbow garden complete with a pot of gold
July 14 Beautiful Butterflies	Where do butterflies come from and what do they do as they flit around? Learn about their life-cycles and how to identify their caterpillars. Learn what plants they need to survive.
July 28 Slug University	Have a slimy good time learning about slugs!
August 11 Bats in our Garden	Learn why bats are good for our gardens and make your own bat house.
August 25 Wild World of Backyard Birds	Learn to be a bird detective by identifying types of beaks, feet, feathers, and songs. Find out how to attract urban birds to your garden. Contribute to science by taking part in Project Feeder Watch
September 8 Veg Out	What to do with those wonderful veggies? Make vegetable soup and vegetable critters!
September 22 Good Nite Garden	It's time to plan for putting the garden to bed. Join us for a garden harvest and a look at what comes next including making leaf mold, cover crops, tool care and seed saving.

See us on FACEBOOK and become a friend!
